

## DEPARTMENT OF CHEMISTRY

### Doctoral Research Rotations/Conversations

Student Name (print) \_\_\_\_\_ GWid: G\_\_\_\_\_

Every student joining the Chemistry Department as a Graduate Assistant (GA) or Graduate Research Assistant (GRA) must join a research group by the start of his/her second semester in the PhD program. To ensure informed decisions, students are required to have rotations and/or conversations with at least 3 different PIs. A rotation in a lab often involves literature review, attendance to group meetings, conversations with the PI and a research group member, and lab work. Conversations with PIs can also involve literature review, attendance to group meetings, and conversations with other lab members.

After each rotation/conversation, please fill out the information required below. Return this form to the Director of Graduate Studies (DGS) at the end of your first semester in the program, along with a completed and signed Join/Exit Research Group form.

#### Rotations / Conversations

1. Research Group (PI's name): \_\_\_\_\_

Dates of Rotation (or Conversation): \_\_\_\_\_

PI's Signature: \_\_\_\_\_ Date: \_\_\_\_\_

2. Research Group (PI's name): \_\_\_\_\_

Dates of Rotation (or Conversation): \_\_\_\_\_

PI's Signature: \_\_\_\_\_ Date: \_\_\_\_\_

3. Research Group (PI's name): \_\_\_\_\_

Dates of Rotation (or Conversation): \_\_\_\_\_

PI's Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Student Signature \_\_\_\_\_ Date: \_\_\_\_\_
